

Student Learning Links

Dear Parent(s) and or Guardian(s):

Learning outside the classroom is very important at Huron Academy.

Huron Academy's website now offers fun, free, educational online resources to keep your child learning outside the classroom. These resources can be accessed on any device with Wi-Fi connection.

To access the online resources:

1. Please visit www.huronacademy.org
2. Choose the *Families* tab
3. Choose the *Learning Links* page
4. Choose your grade level to begin

To bypass the steps above, you may also access the online resources by typing <http://www.huronacademy.org/learning-links.html> in your web browser.

Huron Academy does not maintain the websites linked from our pages. We cannot be responsible for content on pages outside our school website. Sites are selected carefully for elementary and middle school student use, but cannot be guaranteed. Please keep in mind that adult supervision is encouraged when students are exploring the Internet.

Please email the webmaster of Huron Academy (schwartzm@huronacademy.org) if you discover any broken links, sites that no longer exist, or have changed dramatically from the intended content. Include the district URL address of the page and a brief statement about your question or comment in the email and we will review your message.

We are excited for you and your child to experience these fun online resources in the comfort of your home.

Best Regards,

Mrs. Schwartz
Computer Teacher
